the population is said to regard all religion, whether Buddhism, Christianity or any other, as unpractical superstition. The Christian missionaries, however, have the christian missionaries and the christian missionaries are christian missionaries, however, have the christian missionaries are christian. been able to make considerable headway, particularly through their educational work and their hospitals.

Outbreak Comes Suddenly.

The outbreak of revolution in Wu-Chang appears to have come with the suddenness of rain from clear skies, and it can only be taken as an indication of the widespread disaffection throughout BURGLAR'S WORK WATCHED POOR The last previous outbreak of revolutionary activity was in the province of Sze-Chuen, 500 miles up the river and it appeared at Cheng-Tu, an interior town, 175 miles north of the river. It is noteworthy, however, that Cheng-Tu also is a provincial capital. tudents of Chinese affairs have be lieved for a year or more that the signs

pointed to a long series of outbreaks which pessimistic observers believe will lead to the dismemberment of the empire. The struggle is said to be in its essence a test of strength between the great central government and the provincial baronies, in this way resembling the feudal wars of Europe in the middle

Cabinet Meeting at Peking to Consider the Situation

PEKING, China, October 11.-A special cabinet meeting was held this afternoon to consider the situation at Wuchang.

Last Monday he learned that an outbreak had been fixed for that midnight. He made thirty-two arrests, and seized documents, proclamations, explosives and forged seals, along with papers that showed that the revolutionaries intended to make Hu-Peh the base of operations, which were plenned to en-velop the Yangtze-Kiang provinces, particularly Hunan.

Experience.

Edwin E. Vrooman of 1401 Hamilton street watched a burglar pick up his watch and other valuables on the dresser of his room about 2:30 o'clock this morning. But he made no move to prevent the very bureau over which the thief was leaning. Neither did he wish to arouse his wife, who was asleep in the room, by a struggle with the thief.

For ten minutes he watched the burglar away, as far as any good it would do him those in the greatest need.

When Mr. Vrooman awoke from a sound sleep and noticed that it was still dark he heard a slight noise and raised his head from the pillow. A man standing over the bureau was the night and day. sight that caught his eye. What One thousand sailors in the six days should he do? he wondered. Then he since they landed have constructed realized that his revolver, intended to temporary fortifications to protect the meet just such an occasion as this, was in that bureau. Concluding that discretion was the better part of valor, he lay absolutely quiet.

Watches Burglar at Work.

He saw the visitor pick up his watch from the bureau and walk stealthily to the window. The burglar gave it a close examination and discovered the monogram on the case. Then he walked back to the dresser and put it A down. He looked over other things on the bureau, and once, when Mr. Vrooman made a noise by moving his arm, he stopped the search and stood per-

Many Other Robberies.

with which the police are dealing today. The number of robberies reported to have been perpetrated yesterday and last night pers of the detective force

Other complaints than that of Mr. Vrooman describe daring robberies at the homes of residents of the northwest section, a hold-up in the northeast, the operation of thieves among shoppers in the business section and numerous petty thefts. Only in one instance was a pistol brought into play, and that was at the house of Dr. Harry W. Kenner, druggist, 1711 17th street, shortly before 3 o'clock

Intruder Displays Pistol.

A pet dog at the house of Dr. Kenner probably prevented the intruder, a colored boy about seventeen years old, from making a big haul, Sarah Kinsley, the dog making such a fuss on the second floor that she went up to investigate. When she reached a partly open closet bottom of a pair of trousers and she knew that such articles did not belong there. She fairly dragged him out and started im downstairs with the pet dog snapping at his heels.

Mrs. Kenner, who had been away rom home, had just stepped into the hallway when the colored boy descended the stairs. Thinking she would make it easy to get rid of the intruder in a hurry, Mrs. Kenner made a move to open the front door. Her move was evidently taken by the negro as an effort to block his way, and he drew a revolver and pointed it at Mrs. Ken-

Native Mayor of City.

Tripoli by decree of King Victor Emmanuel. He sent a message of loyalty and devotion to the Italian sovereigns, and the communication was also signed by other notables of Tripoli. It expressed their satisfaction at the Italian occupation of Tripoli, which they said represented the resurrection of their beloved country, which aspired to be once more as at the time of the Romans, as a source of prosperity and pride for the metropolis LONDON, October 11.—A dispatch to Lloyds from Malta today says that an Italian army expedition of three battleships, a cruiser, eight torpedo boat destroyers and nineteen transports passed Malta this morning going southeast.

Turkish Attack on Land

Is Repulsed by Italians

LONDON, October 11.-The London Daily Telegraph's war correspondent sends this dispatch to his paper from Tripoli, describing the Turkish attack on the forts at 2 o'clock Tuesday morning: The Italians have won their first land battle in fine shape. The friendly Arabs gave the Italians warning of the probable attack by the Turks. They said that the Turks would, no doubt, attempt to enter Tripoli at night Ample precautions were taken to rein force the posts, particularly the new

works to the south. The warships were about four miles offshore. The Turks were discovered about 1 o'clock in the morning advancing in two olumns, supported by field guns. Fortunately, it was a bright, moonlight night, and the Italians ashore were judiciously assisted by searchlights. All night the Turks approached Tripol in good order. There were thousands supported by native auxiliaries. Whe they were within a few hundred yards the marines from the works and trenches

poured into their ranks a tremendous rifle fire, supported by machine guns and field artillery.

The intended Turkish surprise entirely failed, but the Ottomans stood to the attack courageously, replying to the in trenched Italians with a heavy fire and striving to press home the action, first on the west. The Italian marines, how-

ever, were not shaken They were undaunted and fought most brilliantly, firing with steady and deadly accuracy. They beat back every attempt of the enemy. From 1:30 to 2 a.m. the rifle fire was fierce. After that it dwindled and ceased. The enemy retreated with

Behavior of Marines Admirable.

On the eastern side the attacking col umn of Turks tried to turn that flank of the Italian defense. They advanced into the palm belt and threw shrapnel, which About 2 o'clock in the afternoon a fell near the sea. It was referred to two committees, one a special better the movements of the night's call- planned to distribute these among the committee authorized at last night's er. Between wondering how much his hungry in Tripoli, and Capt. Cagni of the meeting of the chamber, and the other losses would be Mr. Vrooman thought Italian landing force consulted with the committee on law and legislation. Mr many times of the gun not fifteen feet some of the Turks, devising a plan to Sinclair, the chairman of the latter comaway-and yet a thousand and one miles make sure that the supplies should go to mittee, said today that he would appoint work on the question of better enforcement of the regulations at the street

> The great difficulty in the enforcement of traffic regulations in Washington lies, in the opinion of many, not in the traffic regulations—a new set modeled after the Eno system has recently been approved by the superintendent of police-but in important points of the town, while the laws which are behind those regulatemporary landing stages to facilitate the street cars vested in the interstate disembarkment of the troops with commerce commission and the authority over other vehicles in the streets vested in the Commissioners and the police department there is constantly a conflict and misunderstanding as to duties, it is

Sylvester Points Out Difficulty.

Maj. Sylvester in a letter to the Chamber of Commerce has set out the difficulties involved, and recommends that a law be enacted placing the control of the is hoped to establish a direct cable street car companies in the District Commissioners. His letter says in part: "At intersecting streets, where the

street cars cross, the police have no control over these cars, they being under the supervision of the interstate commerce commission, and running on schedules established by that body, the police being authorized in the name of the commissioners to swear out warrants for violating the United States statutes rel-

running of a car at a crossing at his nto by me and the matters embodied in a report relating to traffic regulations, now in the hands of the District Commis-

Troubles of Crossing Police.

"The members of the regular force, stationed at crossings, so far as they are able, enforce the police regulation rules of the road, hold in check vehicles going north and south or east and west, allowing them to pass alternately at crossings where there is congestion, but, as I have stated, the interjection of the street car proposition in a large measure destroys the carrying into effect of the regulations relating to vehicles, as an piers for this bulkhead are now nearing officer might direct vehicles to proceed completion. In the laying of concrete the at one time and a street car motorman crossing their path might proceed at the same time without direction from the

"The control of the street car companies should be vested in the Commissioners, as are other matters, and must be before there can ever be an expeditious regulation of traffic in this jurisdiction. Our streets are wider than those of any other city in the country, and at tracks has introduced a new difficulty closely congested corners it is necessary which, although not serious, may conto locate two police officers at busy times, tinue to retard the work in the lower closely congested corners it is necessary but, owing to the limited number of men at command, this cannot always be done.

"The street railway crossing policemen are paid by the railway companies for GIRL IDENTIFIES NEGRO their services, and in the act creating them are authorized to give their greatest attention to the railway companies operating cars; but the placing of these cars under the interstate commerce comnission in a measure nullifies the former

INDIAN ASSOCIATION IN ANNUAL CONFERENCE

Prominent Men, Whites and Indians, to Consider Interests of the Red Men.

COLUMBUS, Ohio, October 11.-The first annual conference of the American Indian Association will open here tomorrow, its sessions lasting through to the evening of October 15. The object of the conference is to bring out the opinion of the American Indian in regard to the administration of his affairs.

Much interest has been shown in the convention, both among the Indians and Indian race-lawyers, educators and ministers-have joined hands in making the coming conference one of note and a hearty co-operation has been extended by those interested in Indian affairs among trial

Dr. Lyman Abbott is expected to be present and men prominent in official and business life are scheduled for addresses Outline of Program.

The program for the conference will include an address by Dr. F. A. Fastman, a Sloux, of the Amherst College faculty; Miss Nora McFarland of the Nez Perces tribe, Charles E. Dagnet of Peoria, Ill.; Miss Rosa La Flesche, Miss Laura Cornelius of the Oneida race; Dr. Carlos Montezuma and many others. pled by S. S. Jones, international general secretary of the Y. M. C. Months' Delay on the

COLON, Panama, October 11.-While the American public is rejoicing in the prediction of President Taft that the Panama canal will be open in July, 1913, alarm has been occasioned here by the fact that earth around the great Gatun lock is sliding. So far the slide has not occasioned any great amount of damage, but many persons in Colon fear danger for this city. The canal commission admits that the slides have caused four months' delay in the construction of the cofferdam, but the engineers scout the theory of grave danger on the great government works.

It has long been a moot point upon the isthmus as to whether the ground under the Gatun dam is strong enough to susa subcommittee this week to get down to and whether the dam itself will be powerful enough to withstand the pressure of a lake 110 square miles in extent and 85 feet deep, and what would happen to Colon should one or the other give way. News of the floods in Pennsylvania and Wisconsin serve to increase local fears.

Shifting of the Earth.

The official organ of the canal commission prints the following: "Part of the earth bank behind east wall of the lower lock at Gatun sank on the morning of September 29, and rose a few feet away. The movement apparently was caused by the rock fill which carries the tracks on which the cableway towers run, and only a few hours before the sinking occurred one of

the towers was on the section which fell. "The lock-wall has been constructed at this point to a sufficient height to keep the moving earth from sliding into the lock-chamber, and no difficulty experienced from this source, but the work of repairing the track fall took four days, and the concrete lying in the lower locks was delayed by that much. Only a week before a similar sinking under the cable-way occurred on the west side of the locks.

Movement a Year Old.

These movements of the earth at the ower locks began above a year ago. They are due entirely to the nature of the soil which overlies the firmer earth and rocks upon which the locks are founded continually hampered by sections of the banks falling or sliding into the pit. The total amount of material that has moved of Dr. Timby's daughter and his disabled in this manner is probably not over fifty thousand cubic yards, yet it has retarded excavation, and, consequently, the laying of concrete.

Four Months' Delay.

"The most serious consequence has been that it has caused a four-month delay suction dredges are to excavate for the north forebay and the wing wall. The slides have had the effect of limiting the space in which the cableways can operate over the lock chamber and thus of re- Moore, Cuno H. Rudolph, William Vanstricting the amount that can be placed. "It was believed that when the walls ber all the trouble would be past, but M. Hays, Prof. A. T. Stuart, Henry M. the movement of the light soil under the Baker, Herbert Daniel Brown, Richard fills necessary for the cable-way tower Rathbun, Marcus Benjamin, Cadwell Ty-

Dr. Theodore R. Timby.

IN WASHINGTON

National Museum Rotunda.

TO ARRIVE FRIDAY AFTERNOON

Popular Subscription Proposed for Erection of Monument-List of Committee Members.

Following exercises tomorrow afternoon n Battery Park, New York, the body of Dr. Theodore Ruggles Timby, who claimed to be the inventor of the revolving turret, a movement having been started now to erect a monument in his memory, will be placed aboard a train for Washington, arriving here about 1 o'clock Friday afternoon.

The Timby memorial joint committee, deeming it fitting and appropriate that the body lie in state in the rotunda of the new National Museum, has asked proper authorities to grant such honor. Dr. Charles B. Walcott, secretary of the Smithsonian Institution, is not in the city today, and the regents could not be reached, but it is expected by tonight permission for the use of the rotunda for the purpose stated will have been obtained.

On the special train accompanying the body will be New York and Philadelphia members of the joint committee, and representatives of the different patriotic or ganizations. It is planned to have the body of Dr. Timby, who died in November, 1909, interred in the family plot in Oak Hill cemetery before sunset Friday. That evening at 8 o'clock a mass meeting will be held at Congregational Church, 10th and G streets northwest, where a program of music and addresses of prominent men will be given as a fitting tribute to one of the greatest inventors of his

Appeal to Patriotic Bodies. The aid of the Sons of American Rev-

olution, Loyal Legion, Grand Army of the Republic, National Guard of the District of Columbia and other patriotic organizations of America, including the naval veterans' posts of Brooklyn and New York, has been enlisted in the project of raising a fund of at least \$25,000 to honor ing of Dr. Timby and a memorial souvenir containing a record of his work. The purpose of the fund is set forta as being, first, to provide for the support grandfather; the restoration of her Brooklyn home to Mrs. Virginia Chandler Titcomb, who cared for Dr. Timby and his family for eleven years; the payment of outstanding obligations connected with Dr. Timby's support during his lifetime, and the erection in this city of a suitable monument for him. It is the desire of the committee that the subscriptions range from \$1 to \$5, and that the fund be subscribed by a great number

of persons rather than a few.
